**COMMUNITY CAPITAL MANAGEMENT RELEASES
“GREEN FIXED INCOME INVESTING WHITE PAPER”**

**New Guide Helps Investors Understand Expanding
“Green” Investment Options Within Fixed Income**

FT. LAUDERDALE, FL – July 15, 2009 – Community Capital Management today released a new white paper “Green Fixed Income Investing.” The report aims to provide investors with an overview of green fixed income investing and outlines some of the research, best practices and opportunities currently available in the green fixed income marketplace. The report is available for download at no charge from Community Capital Management’s website at <http://www.ccmfixedincome.com/whitepaper.php>.

The 10-page white paper covers:

- Environmental benefits of green fixed income investing
- Types of market-rate, green fixed income investments
- Incorporating green fixed income investing into a portfolio

“With the current push for renewable energy and green building, green fixed income investment opportunities will increase,” said Alyssa Greenspan, CFA, Senior Vice President and Portfolio Manager of Community Capital Management. “We’re providing a guide to help investors understand this rapidly expanding marketplace.”

About Community Capital Management
